**This is not a complete list of all libraries with pedometers.**

If you do not see your library listed, you can review:

<http://catalogue.tracpac.ab.ca/polaris/Search/default.aspx?ctx=1.1033.0.0.3>

This will take you to a website that has libraries listed in a drop down (upper right hand corner):

The screenshot shows the TRAC website interface. At the top right, there is a dropdown menu labeled "Choose your local library..." which is circled in red. The main header features the TRAC logo and the text "The Regional Automation Consortium (TRAC)". Below the header is a navigation bar with links for "LIBRARY INFO", "SEARCH", "COMMUNITY", "MY ACCOUNT", and "HELP". The search area includes a "Keyword search for:" field, a "Go!" button, and dropdown menus for "Search by:" (set to "Any Field") and "Limit by:" (set to "All formats"). A "More Search Options" link is also present. On the left side, there is a "New Titles" RSS feed section with a list of categories: "New Books", "New Videos", "New Sound Recordings", and "New Large Print", along with a "What's RSS?" link.

After choosing your library, type in Pedometer in the keyword search and ``Go``. Next click “Where is it?” for item number 1 and you will be directed to a list of libraries with pedometers. If the library you searched for has pedometers they will appear first in the list.
